REQUEST FOR EXPRESSION OF INTEREST
SUPPLY, DELIVERY, INSTALLATION, TESTING, COMMISSIONING AND MAINTENANCE OF A JOB EVALUATION SYSTEM
SRC/EOI/JE/09/2019-2020

1. Background
The Salaries and Remuneration Commission is established by the Constitution of Kenya 2010 with the mandate to set and regularly review the remuneration and benefits of all State Officers; and advise the national and county governments on the remuneration and benefits of all other public officers. Section 12 (3) of SRC Act of 2011 requires the Commission to further be guided by the principle of equal remuneration for work of equal value. Consequently, the Commission undertakes Job Evaluation for State Officers and other Public Officers jobs to determine the relative worth of jobs for each institution.

In the 1st Job Evaluation exercise, the Commission used the Paterson Job Grading Philosophy, which has been widely applied with great success globally to band Public Service jobs. Role Value Index (RVI), Tuned Assessment of Skills and Knowledge (TASK) and REMeasure JE systems were used to evaluate jobs and thereafter, correlated to Paterson for purposes of job grading/banding. The three (3) systems are point factor based, developed using the same principles which are: Accountability; Decision Making; Impact; Working Conditions; Responsibility; Job Knowledge; Managerial Skills; Independent Judgment; Inter-personal Skills; and Problem solving. The factors for each unique job were clustered in the following three (3) broad factors:

(i) Input – The minimum requirements for a job holder to be able to effectively deliver on job;
(ii) Process – The process a job holder follows in execution of their job; and
(iii) Output – The impact the job holder’s responsibility at different levels.

Since the systems are based on the same principles, they can be correlated.

The Commission formulated its 2nd Strategic Plan for the period 2019 - 2024 and focuses its efforts in delivering on its mandate through mainstreaming Information and Communication Technology (ICT) through development of a Job Evaluation (JE) System.

The Commission therefore, invites interested, bidders who have competency, experience and capacity to carry out the assignment.

2. Objective of the Assignment
The objective of the assignment is to supply, deliver, install, test, commission and maintain a JE System which will be responsible for the following:

(i) Assess comparable and relative worth of the jobs indicated under the scope of work;
(ii) Provide criteria for classifying the jobs; and
(iii) Provide a rationalized, harmonized, and equitable job-grading structure.

The Commission is seeking for reputable firm(s) or consortium (vendors) that has competency, experience and capacity to develop a JE system. Vendors will be evaluated in terms of Functionality and Technical Expertise and the best fit vendor shall be identified.

3. Expected Deliverables
a) Inception Report giving a detailed understanding of the assignment; b) A detailed work plan with the resource requirements schedule/ Roadmap for Implementation; c) “As Is” JE System document; d) “To be” JE System document; e) User requirement analysis document i. System analysis document ii.
